

GRAPHIC DESIGN

SEMESTER ABROAD

OVERVIEW

The Graphic Design semester abroad course teaches information on advanced graphic design techniques. The succinct but comprehensive coverage of the multitude of technical issues confronting today's graphic designers is coupled with examples of graphics from around the world, focusing on typically Italian and European graphic design.

The main focus of the semester abroad option is to provide students with a specialized dimension in the field and an increased understanding of Italian design through investigations in history, theory, analysis and methods. The location of the program is essential in illustrating the relevance of Italy in forming the foundations of modern thought and concepts. Graphic design courses cover all aspects of graphics, such as typography, layout, colors and theory. All courses are taught in English.
